## Statement of Purpose

I am XXXX, permanent resident of Kusunti-13; Lalitpur, Nepal born on 11th April 1997. I would like to continue my further studies in Australia. I have completed my school level (SLC) securing 74.63% with first division from XXXX located at lagankhel in the year 2013 A.D. after that I completed my +2 in the year 2015 A.D from XXXX situated at Jawalakhel, Lalitpur securing 65.10% (aggregate) with first division. After completion of my higher studies, I joined IELTS class and started for preparing to go abroad. I had struggled to register for my IELTS exam and finally took the test and achieved 6.0 in overall. I have always dreamed about studying abroad as it provides quality education and golden opportunity to build up my career. My huge interest on Business is another reason to choose abroad studies as it needs practical skills. My interest in business blossomed since my childhood. My Dad also studied business and still works in that field so I was motivated from him since childhood.

I want to pursue my further studies at an international level to achieve globally recognized degree. I believe that having an international degree will help me to provide quality service and also boost my professional career. I have very much been interest to study in Australia as it offers quality higher education qualification which is globally recognized. I am sure that I will build up my practical skills, communication skills, creativity, confidence etc which I believe are key qualities if I study in Australia. Australian graduates are easily accepted and recognized world-widely. I believe that after I complete my studies in Australia I can use my skills, experience and establish any kind of business in my country Nepal more effectively and efficiently. In connection to this, after a long and thorough research of institutions, I came to know about XXXX that provides the best platform to study business considering its high quality of education and affordable tuition fees. Sydney has many universities and colleges among which I found XXXX as most appropriate choice after surfing through internet and getting suggestion from my friendsXXXX looks forward in providing quality training and experiencing along with equipping students with the necessary skills. There are also many international students. After consulting with seniors and college representatives I found XXXX really impressive and I found that I could create my bright future here due to which I chose XXXX.

Australia is one of the most developed countries in the world. The excellence in education, multicultural students and English speaking country makes Australia a choice of many students from all over the world. Along with the development of the technologies and well managed modern Business World. The

education services for overseas student's act 2000 or ESOS act is another reason for positive mind make up in study in Australia. That controls the delivery of international education in Australia. The ESOS act was introduced to provide a legislative framework to ensure the quality of programs and services provided to international students and to ensure that the rights of international students are protected. I found Australia much safer place to ensure my bright career because the environment of Australia is similar to that of our country.

Recently, Nepal has been able to provide proper education in the field of Business management and accounting but we are still lacking the demanded numbers and well managed system to select students. Our admission is not fixed even after we secure higher marks in CMAT exams. Nepal is a developing country so there will be more demand on Business professionals and well educated manpower in future. So, I want to get proper education because of which I can help my nation back to move forward. After the completion of Advance, I will apply for Bachelors of Business Administration in King's Own Institute with credit transfer. After completion of bachelors, I will apply for PSW. PSW stands for post study work. The duration of PSW is of two years and it will help me to achieve international work experiences. Gaining new knowledge and work experiences will be more fruitful for me, I can utilize it after I return back Nepal. I can also get jobs in different multinational companies, Business corporate and Commercial Banks like: NCELL, NTC, Nabil Bank, Everest Bank, Industries and so on and I can help them in the entire possible manner I can. Later I can also start my own business through where I can help people or companies individually without the command of others.

Hereby, I am confident that my dream and career goals can only be fulfilled with hard labor and proper guidance of XXXX. Thus, to conclude I would like to say that I intend to start my course for getting degree at XXXX in Advance Diploma Of Business. I also understand that I will complete my course according to the college's programs, all the rules and regulations and respect the Australian Law.

I am looking forward for getting your positive response.

XXXX
